MEDIFACIALS

Where Luxury Meets Clinical Expertise

Discover our exclusive collection of Medical Grade Facials — results-driven treatments that blend advanced clinical formulations with the luxurious care and calm of The Secret Spa.

The Difference Between Cosmetic and Medical-Grade Facials, Cosmetic facials work on the skin's surface, focusing on cleansing, relaxation and hydration. Medical-grade facials,

however, go deeper — using pharmaceutical-grade ingredients clinically proven to transform the skin at a cellular level. Each facial at The

Secret Spa is performed by highly trained therapists, combining science-led precision with spa serenity to deliver both visible results and total relaxation.
